

Monthly Security & Compliance Report

Executive summary for the 31-day window ending Jul 31, 2026. Focused on what JFrog blocked, what remains exposed, and which coverage decisions need leadership attention.

Period · Jul 1, 2026 – Jul 31, 2026 Instance · solenglATEST.jfrog.io Generated · 2026-07-31

SECURITY POSTURE AT A GLANCE

500

Critical occurrences
497 more vs prior

727

Blocked at gate
of 42,856 requests

28,245

Violation instances
0 high, 0 medium

77%

Xray indexed
846 of 1,094 repos

18

Active users observed

82%

Curation coverage

15

Active watches

120

Blocking policies

Critical exposure increased. Critical violation occurrences moved from 3 to 500.

01 · CURATION

Supply chain gate

42,129

Clean packages allowed
after policy evaluation

727

Risky package requests
blocked

18

Active users observed in
Curation activity

82%

Supported remotes
enabled for Curation

BLOCKED REQUEST REASONS

- 17 Malicious (2%)
- 679 Security (93%)
- 31 Operational (4%)

ECOSYSTEM COVERAGE

npm		72/73
Docker		28/72
HuggingFaceML		42/42
PyPI		31/37
Maven		31/32
AIEditorExtensions		13/15
oci		0/6
NuGet		5/5

02 · XRAY

Residual exposure

REMEDIATION READINESS

0

SLA breaches
critical over 30 days

11

Known fix paths
190 artifact hits with fixes

1

Watch blind spots
repos with violations and no watch

SEVERITY DISTRIBUTION

PLATFORM COVERAGE

Xray indexed repos	846 / 1,094	248 repos unscanned
Curation remotes	242 / 296	54 not enabled
Policies enforcing	120 / 147	27 in Dry Run
Active watches	15 / 29	

Data confidence: Coverage gaps limit confidence in the residual-risk picture. Use the full report for issue-level work queues and repository detail.

03 · LEADERSHIP ATTENTION

Decisions required this week

01 Set an Xray indexing target for 248 unscanned repositories

Only 77% of repositories are indexed. Decide the coverage target, accountable owner, and deadline for closing the visibility gap.

P1

Effort: Leadership decision

846 / 1,094 indexed

02 Close 54 supported Curation gaps

Supported remote repositories can still serve packages without Curation screening. Confirm whether these gaps are accepted risk or require enablement this period.

P1

Effort: Leadership decision

242/296 remotes enabled

03 Confirm ownership for 500 critical violation instances

Critical exposure remains in indexed repositories. Keep component-level work in the full report, but ensure each critical item has an accountable remediation owner.

P1

Effort: Ownership decision

500 critical, 0 high

04 Require watch coverage for 1 repositories with violations

Repositories with violations and no watch reduce accountability. Decide whether every violating repository must map to an active Xray watch.

P2

Effort: Governance decision

500 critical hits in blind spots

04 · TREND

Threat velocity

PERIOD	CRITICAL	VIOLATIONS	GATE BLOCKS
2026-06-30	3	94	0
2026-07-31	500	28,245	727

Across 2 reports, critical findings rose from 3 to 500; total violations rose from 94 to 28245, while gate blocks moved from 0 to 727. Prioritize the oldest fixable critical issues and owners this week.
