03 · LEADERSHIP ATTENTION

# Decisions required this week

## 01 Set an Xray indexing target for 248 unscanned repositories

Only 77% of repositories are indexed. Decide the coverage target, accountable owner, and deadline for closing the visibility gap.

P1

Effort: Leadership decision

846 / 1,094 indexed

## 02 Close 54 supported Curation gaps

Supported remote repositories can still serve packages without Curation screening. Confirm whether these gaps are accepted risk or require enablement this period.

P1

Effort: Leadership decision

242/296 remotes enabled

## 03 Confirm ownership for 500 critical violation instances

Critical exposure remains in indexed repositories. Keep component-level work in the full report, but ensure each critical item has an accountable remediation owner.

P1

Effort: Ownership decision

500 critical, 0 high

## 04 Review 27 Curation policies still in Dry Run

Dry Run policies observe risk but do not block it. Decide which policies should move to enforcement after owner review.

P2

Effort: Policy decision

120 blocking, 27 Dry Run
